## Projects

| September 2024 | **Athletic Aim** 🔗<br>Designed and developed a modern, responsive website template for Athletic Aim, a sports club, tailored for sale on ThemeForest. The template includes customizable layouts, event pages, and team sections, built with HTML, CSS, JavaScript, and Bootstrap to ensure flexibility and cross-device compatibility. |
|---|---|

| August 2024 | **Fregistax - Dual Language support** 🔗 |
| | Enhanced the Fregistax website by implementing dual language support using JavaScript and Google API, allowing users to switch seamlessly between languages. This feature improved accessibility and user engagement on the platform. |
| | |
| May 2024 – July 2024 | **Grocerex - Grocery Store** 🔗 |
| | Designed and developed a responsive e-commerce website for Grocerex, a grocery platform, incorporating features like product search, filtering, and cart management. Utilized HTML, CSS, JavaScript, and Bootstrap to ensure a seamless user experience across devices, with cross-browser compatibility testing. |
| | |
| April 2024 – May 2024 | **Fregistax - Worldwide Shipping and Professional Solutions** 🔗 |
| | Designed and built a responsive website for an shipping agency with custom loaders and cross-device testing using HTML, CSS, JavaScript, and Bootstrap. |

## Goals

As a Frontend Developer, my goal is to continually enhance my expertise in modern technologies, particularly React and CSS frameworks, while contributing to projects that improve user experience and engagement. I aim to work in a collaborative environment where I can learn from experienced professionals and tackle challenging problems, ultimately advancing my career in web development. Additionally, I seek opportunities to engage with the developer community through open-source projects, fostering knowledge sharing and continuous learning.
